Ah – good catch. I think we meant to put the Grand Prairie location on the sheet we sent you, instead of Fort Worth. We'll update that on our end. The only EtO Sterigenics facilities in R6 are in Santa Teresa, NM, and Grand Prairie, TX. The rest are gamma radiation (except for 7865 Will Rogers Blvd in Fort Worth, which appears to be an office building).

Jon – We got a copy of stack sampling notification from a Sterigenics facility in Grand Prairie, TX. We didn't see this location on your sterilizer facility list. Using Google, we found the following Sterigenics facilities in R6.
